Art Unit: 2614

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2, 4-7, 9, 13 and 14 are now rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In both independent claims 1 and 2, applicant now recites language specifying that "*said clip has a joint portion for moving arbitrarily said display device*", but nowhere in the original disclosure is a joint portion recited. (Language specifically stating *moving arbitrarily* (or *arbitrarily moving*) is also nowhere recited in the original disclosure, for that matter).

Furthermore, how a joint portion is (or would be) used to move the display device is not disclosed nor can be visualized by the examiner.

2. Claims 1, 2, 4-7, 9, 13 and 14 appear allowable over the prior art, assuming that a clip can somehow be used to relocate a display device to another arbitrary location regardless of its relationship with the main body.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
